## EDUCATION

---

### •Indian Institute of Information Technology, Dharwad

2021-2025

*Bachelor of Technology, Computer Science and Engineering*

## EXPERIENCE

---

### •Jyovi Enterprises

2022-2023

*Web Engineer*

Mumbai/Remote

- Built a full stack call consultancy firm
- Technologies - MERN Stack, AWS

## PERSONAL PROJECTS

---

### •Scholar Chat

*A platform for researchers to connect and chat with their ORCID*

- Tools & technologies used: MERN, Sockets, AWS
- Major Contribution in optimizing, improving security and building a structured OAuth flow of ORCID

### •Event Management

*The complete event management website for club events from registering to ticketing.*

- Tools & technologies used: MERN, TailwindCSS, Lambda
- Got in-depth knowledge about software architecture and how production applications are built. 100k API calls and running.

### •tiNyy URL Shortener

*Long URI shortener.*

- Tools & technologies used: MERN
- tiNyy provides a short URL of long links and makes them easy to share! For Developers, one can also use the API without any auth key

### •Clash of CSS

*A platform to compete with CSS skills*

- Tools & technologies used: Node, React, Image Optimization
- Clash of CSS is a platform where you can compete with other developers in CSS Battles. You can also create your own battles and challenge other developers. Currently I am trying to build an umbrella SaaS for this project, the frontend is open source and you can contribute to it. The results are 100% match to the results of the original.
